

Chapter 2: Pour, Scoop & Transfer

Age 3-6 | Beginner | Parent/Teacher Guided

The reference activity uses containers, cups, spoons and optional droppers to build fine-motor coordination, attention and cause-and-effect learning. This worksheet reinforces tool recognition after real practice.

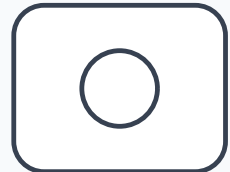

What to do

Do the hands-on activity first. Show one tool and name it. After the child uses it, ask them to find the same tool picture and circle it. Keep the routine short and

1. Scoop

Child: point to or circle the same choice.

2. Pour

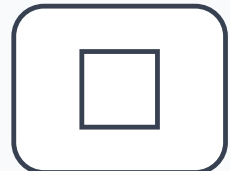

Child: point to or circle the same choice.

3. Scoop

Child: point to or circle the same choice.

Adult supervision is required around water. Use a shallow container, small amounts of water, and a safe non-slip area.
