

## Chapter 3: Move & Play

Age 3-6 | Beginner | Parent/Teacher Guided

The reference includes movement-based sensory play such as ball play and outdoor movement. This page links movement with visual recognition and gives the child a simple way to respond without needing to read.

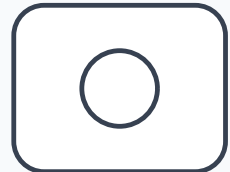

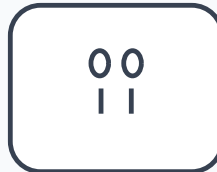

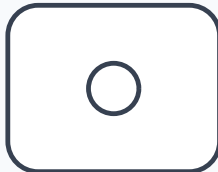

### What to do

Model one safe movement such as rolling a ball or walking. Let the child copy if they want to. Then ask, "What did we do?" The child points to or circles the matching

#### 1. Ball

Child: point to or circle the same choice.

#### 2. Walk

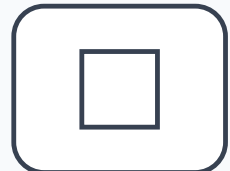

Child: point to or circle the same choice.

#### 3. Ball

Child: point to or circle the same choice.

Choose movements the child enjoys and can do safely. Looking, pointing, choosing, or copying are all valid responses; do not force physical participation.
