

Module 2: Sensory Learning & Exploration

Age 3-6 | Beginner

This module adapts the sensory-play ideas in the provided reference into short, parent/teacher-guided learning tasks. The focus is noticing sensory differences, fine-motor participation, movement, exploration, sorting, and communicating preferences. The worksheets support the real sensory activity; they are not a replacement for hands-on play.

Chapter 1: Touch & Texture

Explore safe textures, then match what the child experienced.

[Worksheet: Chapter_1_Touch_and_Texture.pdf](#)

Chapter 2: Pour, Scoop & Transfer

Practice tool recognition after pouring and scooping.

[Worksheet: Chapter_2_Pour_and_Scoop.pdf](#)

Chapter 3: Move & Play

Connect safe movement play with simple visual understanding.

[Worksheet: Chapter_3_Move_and_Play.pdf](#)

Chapter 4: Sensory Walk

Notice what is seen, heard, or felt during a sensory walk.

[Worksheet: Chapter_4_Sensory_Walk.pdf](#)

Chapter 5: Shape Sorting

Sort objects by shape and reinforce visual discrimination.

[Worksheet: Chapter_5_Sort_by_Shape.pdf](#)

Chapter 6: My Sensory Choices

Practice communicating sensory preferences and respecting 'not like'.

How to use the module

1. Hands-on activity first; worksheet second.
2. Give extra response time and accept pointing, looking, choosing, or circling.
3. Notice independence: independent / verbal prompt / visual prompt / physical help / no response.
4. Keep sessions short and adapt or stop when the child is distressed.
